

G503 WWII 1943 Ford GPW Jeep Correct Choke Throttle knobs

This short article shows the G503 WWII 1943 Ford GPW Jeep Correct Choke Throttle knobs

One common question among GPW restorers is what are the correct Choke and Throttle knobs for their jeep. Fortunately, Ford stayed with one type of choke and throttle throughout WWII. On all models of Fords from 42-45, it is believed that Ford used the metal knobs with the raised white letters. If there is any evidence that these knobs had a change, please send us feedback
